

Drug and Alcohol Education

Federal Law (P.L. 101-226) requires that all school districts submit a certification that they have adopted and implemented a drug prevention program.

The major focus of this legislation is to ensure that all school districts throughout the United States communicate to their students, employees, and parents that the use of illicit drugs and the unlawful possession and/or use of alcohol is wrong and harmful.

Drug and Alcohol Education is an important part of the Schleswig Community School health curriculum. We further demonstrate our commitment to eradicating drug and alcohol abuse in the community by emphasizing the negatives associated with drug and alcohol abuse throughout our district's programs and activities.
