

Asbestos Information

Asbestos is an issue the Schleswig Community School has been dealing with for many years. The Asbestos Hazard Emergency Response Act of 1986 (referred to as AHERA), was enacted by Congress. AHERA was enacted to determine the extent of, and develop solutions for, any problem schools may have with asbestos.

A copy of the asbestos management plan is available for your inspection in our administrative offices during regular office hours. We are intent on not only complying with, but exceeding federal, state, and local regulations in this area. We are taking whatever steps are necessary to insure our students and employees have a healthy, safe environment in which to learn and work.
