

INSTRUCTIONAL AND LIBRARY MATERIALS SELECTION

The board has sole discretion to approve instructional and library materials for the school district. This authority is delegated to licensed employees to determine which instructional materials will be utilized by and purchased by the school district. The district will provide licensed employees with the necessary training to ensure selected instructional materials comply with applicable laws. All instructional materials are available for review upon request and subject to applicable laws.

In reviewing current instructional materials for continued use and in selecting additional instructional materials, licensed employees will consider the current and future needs of the school district as well as the changes and the trends in education and society. It is the responsibility of the superintendent to report to the board the action taken by licensed employees.

Education materials gifted to the school district must meet the criteria established above. The gift must be received in compliance with board policy and in compliance with laws.
